

Filter Benefits

- Filters all the cold water to your kitchen or bathroom faucet
- 12 month filter life*
- 6,000 gallons of filtered water
- Filter change-out takes seconds
- Built-in shut-off valve automatically shuts water off during filter change
- Pharmaceutical grade membrane technology filters particles as small as 0.2 micron
- And the best part... great tasting water is delivered right from your existing faucet!

How big is a Micron? A micron is .000039 of an inch.

- A human eye can see 40 micron (a thousand times smaller than the eye of a needle)
- The diameter of a human hair is about 20 micron
- A parasitic protozoan cyst is 5 - 15 micron
- E. Coli bacteria is 0.65 micron wide by 1.7 micron long (**NOTE: The 3MFF100 is not certified to reduce bacteria.**)
- 3MFF100 filter nominal pore size is only 0.2 micron

*Filter life dependant on local water conditions and water consumption.

Reduction Claims

- Chlorine Taste & Odor
- Particulate Class 1
- Cyst
- Lead
- Benzene*
- Toxaphene**
- p-Dichlorobenzene**

Product Specifications

- 6,000 gallon rated capacity
- 2.5 gallons per minute
- Water pressure: 30 - 125 psi
- Water temperature: 40°F - 100°F
- 4" diameter
- Overall height: 16.0"
- 4 lbs
- 3/8" NPT

* used in the production of plastics

** commonly used in insecticides

This system is certified for sustainability attributes by the Water Quality Association according to WQA S-803.

System tested and certified by NSF International against NSF/ANSI Standard 42, Standard 53 and CSA B483.1 for the reduction of claims specified on the Performance Data Sheet.

Model: 3MFF100
Full Flow Drinking Water System

Save \$\$\$

No more buying, carrying or storing bottled water

Bottled-water case weight = 24 lbs.

5 gal. jug weight = 40 lbs.

Filtered water: 6¢ per gallon vs.
Bottled water: \$1.10 per a gallon¹

Replace more than 45,000 16.9 oz water bottles which may end up in landfills

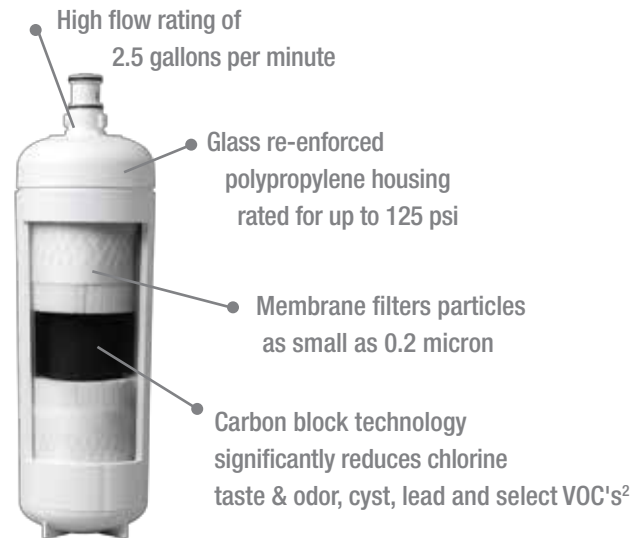

1 filter cartridge = 6,000 gallons of filtered water

Great Tasting Water

right from your faucet.

- No need to drill holes in your sink or counter for a separate faucet
- Maintain your kitchen décor without the added blemish of filtration components
- Maintain useable under sink space as the filter system installs with **minimum space requirements**

Filtered water can be used for:

- Drinking
- Cooking
- Making beverages (Coffee/Tea/Juice)
- Washing food
- Washing dishes

¹ based on average price for 24 pack of 16.9oz bottles from major retailers as of June 2011.

² See product Performance Data Sheet for details.
