

H₂O-KDF/GAC

Product Overview

The H₂O-KDF/GAC filter is a 5,000 gallon capacity **cartridge**. It fits any standard 10" housing and is used in the models shown below.

Granular coconut shell activated carbon (GAC) and KDF 55 process media are combined in this cartridge to reduce chlorine, organic volatile compounds (VOC) and other pollutants that cause bad taste, appearance and odor in tap water.

The cartridge can be made to your specifications and to suit your marketing strategy.

H₂O-RCT

5,000 gal

H₂O-RUS

5,000 gal

H₂O-RUSD

5,000 gal
