

H₂O-RCT

Product Overview

The H₂O-RCT is a replaceable cartridge water filtration countertop system. The filter uses a standard 10 inch cartridge (H₂O-GAC/KDF) or our unique proprietary size cartridge that fits this housing and the housing used by the H₂O-RCT-CP.

The filtration media contains granular coconut shell carbon (GAC) and KDF 55 process media, to reduce chlorine, organic volatile compounds (VOC) and other pollutants that cause bad taste, appearance and odor in tap water. Installed effortlessly in most standard kitchen faucets with a diverter valve for dispensing filtered water when desired. Reduces chlorine and other contaminants that may exist in tap water.

Product Highlights

- Replaceable Cartridge System with 5,000 gallon capacity
- KDF® / GAC Filter Media
- Installs in minutes without tools
- Includes kitchen faucet diverter and adapters that fit most standard faucets
- Long-reach swivel spout
- Bacteriostatic media prevents bacteria growth (algae, fungi)
- Improves taste and color, eliminates odors
- Reduces most EPA listed contaminants
- Includes prorated warranty

Max Capacity	5,000 gal (18,927 L)
Recommended Flow	0.5 to 1.0 gpm (1.89 to 3.79 lpm)
Unit Height	11.5" (29.2 cm)
Unit Width	5.75 " diameter (14.6 cm)
Unit Box Dimensions	13" x 6" x 6" (33 x 15.2 x 15.2 cm)
Unit Shipping Weight	5.0 lbs. (2.3 kg)
Packing	12 per master case
Master Dimensions	26" x 19" x 12" (66 x 48.26 x 30.48 cm)
Master Case Weight	60 lbs. (27.2 kg)
